On UK canals and navigable rivers a **boatyard** was a place where river travellers were able to find various services related to their boats and travel. Traditionally, boatyards were essential places for our river folk and their canal boats and barges as they moved around the country through our marvellous network of waterways.

Today, such boatyards provide longer term moorings and a secure spot for boats not involved in continuous cruising; a safe mooring and community compared to just tying up to the bank on the non-towpath side.

Here at The Venue we provide traditional Fish & Chips, freshly prepared throughout the day for our customers whether for lunch or dinner, or a grazing snack during the day.

We've blended the essence of our national favourite dish with the freshness of some twists and flavours from elsewhere in the UK and other parts of the world to create our very own scene at **The Boatyard Kitchen**.

We equally celebrate the great British breakfast, opening in the morning for a great start to the day for our customers.
