THE BOATHOUSE

KITCHEN

On UK canals and navigable rivers a boatyard was a place where river travellers were able to find various services related to their boats and travel. Traditionally, boatyards were essential places for our river folk and their canal boats and barges as they moved around the country through our marvellous network of waterways.

Today, such boatyards provide longer term moorings and a secure spot for boats not involved in continuous cruising; a safe mooring and community compared to just tying up to the bank on the non-towpath side.

Here at The Venue we provide traditional Fish & Chips, freshly prepared throughout the day for our customers whether for lunch or dinner, or a grazing snack during the day. We've blended the essence of our national favourite dish with the freshness of some twists and flavours from elsewhere in the UK and other parts of the world to create our very own scene at The Boatyard Kitchen.

We equally celebrate the great British breakfast, opening in the morning for a great start to the day for our customers.

LOCALLY SOURCED

T. Quality has long since achieved its ambition and is now positioned as industry leaders to provide the finest frozen at sea produce all across the UK.

T. Quality only sources its fish from the major trusted brands in the industry including Gadus, Kirkella, Glacialis, Brim, Royal Greenland, Granit, Pescafaria and Ramoen. This enables us to supply a wide range of frozen fish including Cod, Haddock, Hake, Pollack, Plaice and Dog Fish. Our fish is all caught using sustainable fishing methods in our ongoing quest to protect the environment and is fully traceable so our customers can track their fish all the way to the source.

MSC CERTIFIED

When you see the blue MSC ecolabel on a seafood dish, you can be sure that the fish comes from a certified sustainable wild capture fishery. Helping to protect our oceans and driving change above and below the water.
